Victoria Day - School Closed

As part of our Form and Function unit, the Grade 7 students designed and built scale models of scaffolds. Their scaffolds had to be specific dimensions and were designed for a particular scenario, painting the outside of camp cabins. Each group was given a different material to use, and they had to determine the best way to create a scaffold that could withstand a 500g load. The students worked creatively with popsicle sticks, wooden stir sticks, straws, pipe cleaners, and cardstock, and they incorporated design features that had been learned within the science unit. The final products were impressive, showing an ability to brainstorm ideas, sketch their thoughts, and then build and modify as needed.

We have had many successful Student Council activities thus far, all of which have brought ruach to our community. The first session of Student Council, led by Shelby Margolis, planned several spirit days for the student body. The first was a Pink day in support of Breast Cancer Awareness, followed by a spirit day where students wore school colours and participated in activities during recess. Next came a relaxing Pyjama Day, specifically scheduled after a tiring middle school ski day. And finally, their last spirit day was Sports themed, where students and teachers dressed in sports attire with the added fun of a "guess the baby picture" challenge. The next session of Student Council, led by Jake Bly, has already planned a crazy hat and hair spirit day. Stay tuned for more great events hosted by the Student Council.

Purim

Monday March 21 was a very special morning. The Grade 6 students prepared the Purim play and performed beautifully in front of the students from SK to Grade 5. This was their first performance out of the two - the second one was at Pine Villa retirement home, where they did an amazing job presenting the Purim play to the residents. After the play the kids gave the Mishloach Manot they had prepared in school during home base time and chatted a little bit with the residents. Not all the residents were able to physically attend our performance, so a group of students went upstairs and knocked on different doors - the residents answered and the Mishloach Manot were given to them. It was a very fulfilling moment for all of us.
